

Reinstatement of Residential Only C&D at Convenience Sites

LINCOLN COUNTY – December 2, 2014

Construction & Demolition (C&D)

Construction & Demolition Waste is accepted at the convenience sites from the homes of Lincoln County residents. Any C&D that is from a contracted job, business, or rental property must go to the main landfill and will be charged per ton. Businesses, contractors, or contracted jobs are not permitted to dispose of any material at the convenience sites.

C&D accepted at convenience sites: residential lumber, sheetrock, plywood, carpet, padding, insulation, floor covering, etc.

C&D not accepted at convenience sites: block, brick, concrete, rock, tile, or shingles of any portions. These materials can go to the landfill for free disposal if it is from the resident's home.

Large multi-loads from a resident will be directed to the main landfill for disposal, due to over-filling of the containers and holding up other residents from disposing of their waste.

Please contact the main landfill office at 704-732-9030 with any questions or visit www.lincolncounty.org/solidwaste for more details.
